孕育泰山的生命之河

The River of Life Nurturing Taishan

大窠溪是流經泰山區的重要水文，自古以來便與在地居民的生活息息相關。清澈的溪水不僅滋養了這片土地，豐富了沿岸的自然生態，更是見證泰山從早期農業社會發展至今的歷史軌跡。

Dake Creek is an important waterway flowing through Taishan District, closely related to the lives of local residents since ancient times. The clear stream not only nourishes this land and enriches the natural ecology along its banks, but also witnesses the historical trajectory of Taishan's development from an early agricultural society to the present.

在泰山國中的校本課程中，大窠溪是一本活生生的自然與社會教科書。我們帶領學生走出教室，認識這條家鄉的生命之河，了解水資源保育的重要性，並從中培養愛鄉愛土的情懷。

In Taishan Junior High School's school-based curriculum, Dake Creek is a living textbook of nature and society. We lead students out of the classroom to get to know this river of life in our hometown, understand the

importance of water resource conservation, and cultivate a love for our homeland.
